

A MIRACLE HAPPENED

Linh And Thong's Story, Two Young People Can Now Face The World

My name is Quang Thi Linh. I'm 22 years old. I live in the high mountain province of Sơn La in the north of Việt Nam. When I was very little, horrible tumours appeared on my face. They grew bigger as I did.

I was seven when my brother, Thong, was born. I prayed he wouldn't look like me. But he did.

Quang Thi Linh and Quang Van Thong

I thought all we had to look forward to was a life of loneliness. We were bullied at school and people turned away from us. We wanted to stay home and hide. **Then, a miracle happened.**

Facing The World's partner, the 108 hospital, which has clinics in remote areas of our country, visited us. They said we had Neurofibromatosis and they could treat us.

We had our operations in 2019 at the 108 Center for Craniofacial and Plastic Surgery in Hanoi. **The wonderful medical staff who work with Facing The World have given me and Thong something we never thought possible – happy lives.**

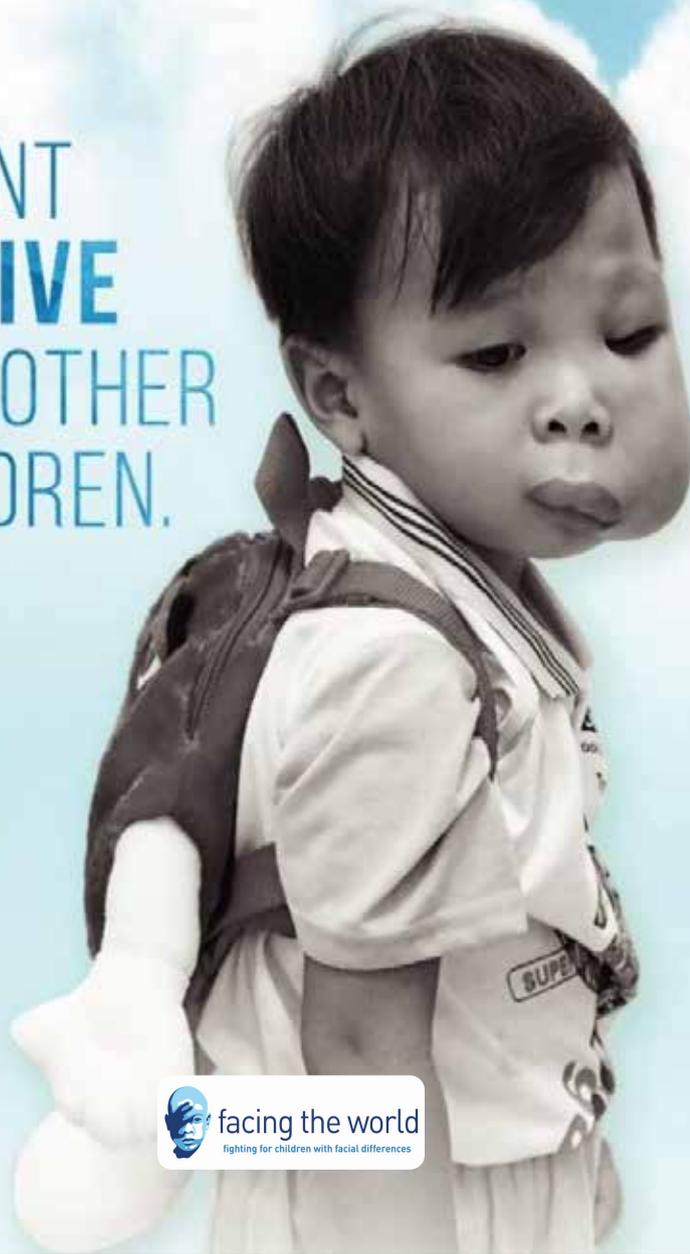

This is us now...

"Thank you, thank you, Facing the World. You have given us the gift of happy lives!"

I WANT
TO LIVE
LIKE OTHER
CHILDREN.

5-Year Goal

Raise £3.5 million
40,000 surgeries
3 Craniofacial Centers
200 fellowships

Miracles can happen but not without your help.
Please help other children live happy lives too.

Thank you.
