

facing the world

fighting for children with facial disfigurement

**Give the Gift of Hope  
this Christmas**

[Make a life brighter this Christmas](#)

**This holiday season, your generosity can  
change the life of a child born with a  
severe facial disfigurement.**

Facing the World's volunteer craniofacial surgeons have transformed thousands of lives in Vietnam through complex surgery and sustainable training.

With your support, we can help more children receive the care they desperately need and bring our life-changing model to new countries.

Every gift matters. You can give a child the chance to heal, to smile, and to thrive.

Please watch [this short film](#) to see the impact you can make.

[DONATE NOW AND CHANGE A LIFE](#)

With heartfelt thanks,  
**The Facing the World team.**
